

THINK OUTSIDE THE BOOK:

Bringing Nonfiction Alive through Hands-On Projects and Activities that Engage Readers and Make Them Want to Read More

Presentation by **Caroline Arnold** at CRA, Sonoma, CA, November 2, 2013

From learning about global warming to how earthworms help the garden, hands-on experience helps bring books to life. Caroline Arnold, author of 150 books for children, will focus on her recent books, including *A Warmer World* (Charlesbridge, 2012) to explore how nonfiction books like hers can be used to encourage children to read and learn about the world we live in.
